

LCA LOAD CELL ANALYZER

The Model LCA Load Cell Analyzer is a compact, user-friendly diagnostic tool designed for fast and accurate testing of load cells in the field or on the bench. Featuring a responsive touch screen display, the LCA provides an intuitive interface for technicians and engineers to evaluate critical load cell parameters with ease. Equipped with an AC power adapter and DB9 connector, this analyzer supports a wide range of load cell configurations and is ready for use straight out of the box.

FEATURES & BENEFITS

- Touch Screen Display
- AC Power Adapter
- DB9 Connector
- Measures:
 - Zero Balance
 - Bridge Input/Output and Leg Resistances with pass/fail indication
 - Short Condition
 - Insulation Resistance
 - TEDS Function Check

STANDARD CONFIGURATION
